Dear Parent

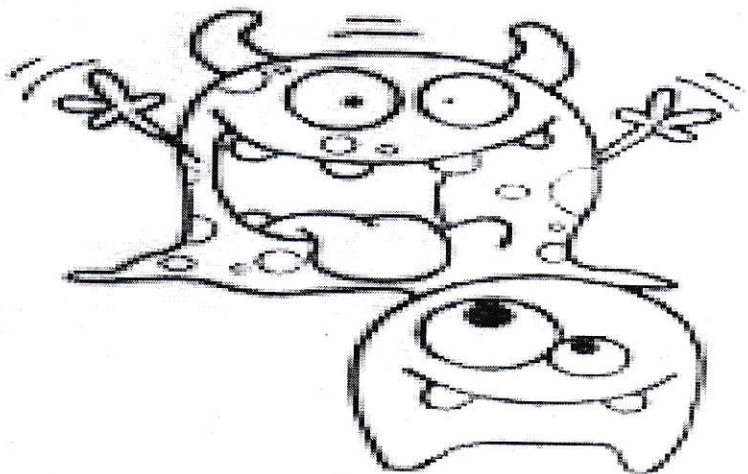

Date : April 13, 2017

We are very happy to share that our school has collaborated with Trekronerskolen School, Roskilde in Denmark for 'Global School Partnership'. We will be doing different projects with them. To start with, class-II is doing a Monster Project.

The process for the same is as follows:

- Each child is required to imagine, create and draw a monster on an A-4 size sheet provided in the class.
- He/She is required to describe the monster using as many adjectives possible, in simple sentences like blue hair, three eyes, pointed nose etc.
- Please guide your ward create ideas and help him/her to practice at home.
- This activity will be conducted on Monday, April 17, 2017.
- You may surf the internet for ideas.
- This activity targets at enhancement of imagination and creativity, vocabulary building, understanding of adjectives, proper sentence structure and creative expression of the students.

Looking forward to a fruitful learning experience for our Dipsites.

  
Principal
